PROJECTS

My Portfolio
- My portfolio project serves as a comprehensive resource that includes both my personal information and the projects I have worked on, allowing me to share my skills and projects with a wider audience.

World On a Plate
- My "World on a Plate" project visually displays the traditional dishes of a selected country, using dynamic data fetched from a database I created.

Quiz App
- My "Quiz App" project pulls sports-related questions from an API and presents them to the user, allowing them to evaluate their performance through a scoring system based on correct answers.
